## FULL STACK WEB DEVELOPER

---

### OBJECTIVES

Certified Full Stack Web Developer from SMU Coding Bootcamp. My programming language of choice is Javascript, but also know Python. With Javascript I use NodeJS for my backend, MangoDb as my database, Mongoose as my ORM, and React takes care of my front end. I've decided to take a different career path, and jump into the programming industry.

---

### EXPERIENCE

#### KITCHEN SUPERVISOR | GRIMALDI'S COAL BRICK OVEN PIZZERIA

Aug 2016 - Present

As kitchen supervisor my duties include order materials, supplies, and ingredients based on demand. Supervise kitchen employees and organize food orders. Oversee the food preparation and cooking process. Recruit and train kitchen employees in designated stations. Monitor inventory levels and perform weekly inventory assessments. Work with the restaurant manager to go over menu items. Schedule work shifts for employees. Store all food products in compliance with health and safety regulations. Ensure the kitchen is clean and organized.

#### ASSISTANT MANAGER | TORCHY'S TACOS

Oct 2012 – Jul 2016

My job duties included opening and closing the restaurant, hire, train and mentor new staff members. I would schedule shifts and assign team positions for the shift. I would resolve customer questions and complaints professionally, ensure the restaurant follows health and safety regulations. I focused on inventory; place orders for ingredients, utensils and equipment as stock is depleted or damaged. I recorded all income and expenses, to make sure cash registers are balanced at the end of every shift.

#### Front-end Developer | [MARIPOSAS RANCH](#)

May 2022-Present

I developed the Mariposas Ranch website using **ReactJS** for dynamic interactivity and **TailwindCSS** for a clean, responsive design. The site highlights the ranch's unique offerings, such as stunning landscapes, accommodations, and events. I included interactive galleries, a dynamic booking system, and an integrated email form for seamless communication with visitors. My goal was to create an elegant, user-friendly experience that works beautifully across all devices.

#### Full Stack Web Developer | [Noas Auto Sales LLC](#)

February 2025 – Present

### ABOUT ME

I am passionate about designing digital experiences that are both visually stunning and intuitive, and always strive to create designs that delight and engage users.

---

### EDUCATION

#### SMU Coding Program 2021-2022

Acquired knowledge of Javascript, JQuery, Bootstrap , NodeJS, ExpressJS, M ongoDB , HandlebarsJS, ReactJS, MySQL, CSS

#### Western Governors University 2024-Present

Bachelor of Science in Software Engineering

---

### SKILLS

Front-end web development  
(ReactJs, Angular, HTML, and CSS)

Back-end web development  
(NodeJs, Express, GraphQL, MySQL)

Git

Bash

Photo Editing

Video Editing

Python

I developed a dynamic and responsive website for Noas Auto Sales LLC using Angular for the front end, Express for the backend, and MongoDB Atlas for data storage, all deployed on Railway. The site allows users to browse available vehicles, view detailed listings, and contact the dealership effortlessly. I focused on creating a seamless user experience with efficient backend handling to ensure smooth performance and scalability.
